

PLEASE SAVE THE DATES!
For
A County Behavioral Health Fiscal Leadership Institute
APRIL 25th and 26th, and JUNE 5th and 6th, 2012
Crowne Plaza Hotel, Sacramento California

You are invited to a county behavioral health fiscal leadership institute. The institute is a new, four-day training series focused on equipping emerging leaders with the knowledge, skills and tools needed to manage the increasingly complex fiscal environment of county behavioral health services financing.

This is the first leadership and training academy of its kind designed entirely for county behavioral health finance managers with the goal of creating a network of finance experts across counties. County Behavioral Health Directors are encouraged to attend with their finance managers.

The institute will provide in-depth information and opportunities for dialogue on a variety of critical topics, including:

- The Key Components of Healthcare Reform
- The Integration of Primary Care, Mental Health and Substance Use Disorder Treatment
- Healthcare Reform and Information Technology
- California's Public Behavioral Health Funding Streams
- Opportunities in Public Policy Changes
- How to Create Solid Arguments
- How to Get Paid for Integrated Care
- Critical Thinking and Decision Making Techniques

This institute is an opportunity to focus, problem-solve and bring together the best working knowledge on finance and leadership in Behavioral Healthcare systems.

For more information, please contact Adrienne Shilton of the California Institute for Mental Health at 916-556-3480, ext. 148 or email ashilton@cimh.org.

Registration materials and agendas coming soon.
