

## **SWAT Team Priority Issues**

**9/28/11**

### **1. Processing delays and System Performance**

- a. When will current backlog be cleared?
- b. Counties need to know what to expect for denied-835 turnaround expectations.
- c. How will this impact 5010 implementation?

### **2. Mixed 4010/5010 processing**

When 5010 cutover occurs (January 1<sup>st</sup>), protocols must be established to deal with mixed processing. The Software vendors have responded to a questionnaire indicating some challenges with mixed processing.

### **3. 5010 contingency planning** – What happens if the State or the Counties are not ready on January 1<sup>st</sup>?

### **4. OHC Issues & COB Situations w/CAS Segment**

- a. Rules for 2320 loop on 4010 claims released in draft, what is 5010 Impact?

### **5. Use of most appropriate AID code**

- a. Currently the system picks the AID code with the highest reimbursement rate.
- b. Proposed change would pick the Aid code with the highest reimbursement rate that is most likely to be approved.

### **6. 5010 270/271 Processing**

- a. EDS to ACS switchover September 30<sup>th</sup>

### **7. 5010 Survey Results – Release of updated survey.**

### **8. OHC issue related to timing of insurance coverage** – Action item 242 e.g., Private insurance ended but still shows as active on MEDS file.
